NORWAY AND VICINITY.

Thanksgiving day, Nov. 29. So says
President Arthur and Gov. Robie.

The skating rink will be open next
Monday evening. You are invited.

The Universalist Sunday School will
give a harvest concert next Sunday
evening, in Concord Hall, at 7 o'clock.

C. H. Noble will send out a cart to
peddle oysters Saturdays of each week.
He thinks of adding fish to his line of
business.

Department Inspector Harrison A.
Tripp will inspect Rust Post this
(Friday) evening at 7:30 o'clock. Every
member of the Post is requested to be present.

John Crockett, one of the cutters at
the shoe shop, with the aid of his
dog and gun, captured 80 partridges
this fall. If any other person has got
them we would like to hear from him.

J. K. Chase of Oxford proposes to
send a beautiful cabinet picture to any
of our readers who may desire it. Send
your address to him on a postal card,
and you will see that he does as he ad-
vertises. See ad.

John J. Hayden has been digging or
blasting a well. After a few feet down
he found a solid ledge. He has used
already five and a half kegs of powder
and about a dozen dollars' worth of
dynamite. The well is down now 234
feet and the ledge still continues.

It was not very thoughtful, but
very kind indeed in the Committee of
entertainment at the Oxford Confer-
ence in So. Paris last week, to provide
such a comfortable conveyance from
the church to the depot, and was thor-
oughly appreciated by the guests so
scarcely protected from the rain.

Our large cylinder press is in run-
ning order and we printed the Adver-
tiser on it for the first time last week.
It is the largest press ever in Oxford
County. We can print a blank-sheet
of a paper or poster 32x47 inches. If
you doubt it just send us in the copy
for an extra large full-sheet poster and
we'll show you.

As was recently announced, we shall
shortly enlarge the Advertiser to an
eight column paper. In about a couple
weeks more we think we can get it.
We shall then have more room and
commence publishing the historical arti-
cles of "Mark Tapley" in good earnest.
In the meantime we shall expect
our Porter correspondents to turn up
by and by and the Hub itemizer to resume
his pen.

Mr. L. L. Withereff was made the
recipient of a very handsome present by
the employees in the shoe factory this
week. The present consisted of Thack-
eray's complete works, 10 volumes, and
King's History of England, 3 vol-
umes. Mr. Knowland in behalf of the
employees handed the present to Mr. W.
as a token of the esteem and respect
entertained for him by those who have
been so long under his charge. Mr.
Withereff was deeply touched by this
expression of respect and assured the
doctors that he would ever be highly
prized by him, and that he would be
of its intrinsic value, but from the source
it came and the years of pleasant busi-
ness association with them while in
Norway.

The fall term of the school at Dol-
ster's Mills taught by Miss Anna C.
Hayden of this village with Miss Car-
rie Skilling as assistant, closed Friday
of last week. Forty-three pupils were
registered and there were 35 classes.
This school is well advanced and con-
tains some very excellent scholars, sev-
eral of whom are well up in the
classical languages. The School Board, having
charge of the school was present Wed-
nesday afternoon at the examination,
and in his remarks at the close of the
school expressed his satisfaction at the
results attained, and his good work
had been done during the term. Miss
Hayden is an excellent scholar and is
one of the very best of our teachers.
She is purposing to attend the Normal
School at Salem, Mass., which begins
about the first of February.

The safe at the Norway Grand Trunk
depot was blown open by burglar
Thursday night of last week. They
broke in the car house at South Paris
and got an iron bar which they brought
out and left at Norway. They forced
the knob and thus made room for pow-
der. They got about \$70, the agent,
Mr. Waters, having fortunately taken
out \$400 in the evening and taken it
to his house. Books, papers and tick-
ets were scattered over the floor.
A number of suspicious characters
have been seen around the station for
the past few days. The station was
entered in much the same manner last
spring. The robbers forced the win-
dow with a jimmy. The room is a
small one with a bay window. The
burglars pulled the safe out from the
wall, tipped it over on some blocks
and by means of a pulley and used on
the railroads for pulling spikes from
the rails, pulled the knob out and in
the hole thus made poured the powder.
The safe door was blown open and the
inner door pried open. The explosion
was severe and completely shattered
the safe front. Those who have seen
the office think that the windows must
have been open or the glass would have
been blown out. The safe was rifled
and tickets and money taken. The exact
money taken was four ten dollar
gold pieces, one five dollar gold
piece, and the rest to the amount of
\$67 in small bills and silver. The
filthy with cards with the name of the
station agent, C. D. Waters. Owing
to the rush of business during the day
Mr. Waters had not made his usual
daily remittance. The amount was
noon Mr. Waters made up his accounts
and balanced the books. He left the
money in the safe, but went back and
took it out in the evening. Auditor
McGregor was here Saturday and
straightened things out and put Mr.
Waters' apartment in running order.
Only one package of ticket are missing
and those were evidently taken by
mistake. It was very fortunate for the
company that Mr. Waters' "fellows" were
returned to the depot in the eve-
ning and took so large a portion of
the money out. Had Mr. Waters tak-
en out his own money that was in the
safe he would have been in a dozen
dollars or so. We wish that some-
thing might be taken that would lead to the
detection of the thieves.

Roller skates at Mason Bros. See ad.
C. B. Cummings visited Boston this
week.
We shall enlarge the ADVERTISER
next week.

We ache for a singing-school. We
are not alone. There are many others
in the same fix. Are we to have one!

The meeting of the C. L. S. C. ap-
pointed for Monday last, is postponed
till next Monday evening at the same
place with same programme.

The Norway Skating Rink was op-
ened last Tuesday evening. There
were some 100 skaters on the floor.
Norway band furnished music.

Mason Bros. have a workman now,
and all parties desiring Sheet Iron work
of any kind done will be served prompt-
ly and at fair prices.

If the parties who broke open the safe
at Norway depot will return the Re-
cords of the Mum Club deposited in
the safe they will confer a great favor
on a bereaved institution.

Condition Powders take a large space
in this weeks paper. They speak for
themselves. Horsemen are unanimous
in their praise. Read the ad. and you
your horse is ailing get a box and try it.
A reception to General Brown and
staff, and the Auburn Light Infantry
will be given by the Norway Light In-
fantry at an early date.

The Maine Farmers' Almanac for '84
is at hand. We have a copy in our of-
fice and one at the house. We are fixed
for another twelve months, and others
go to S. L. Crockett's and do like-
wise.

The new programme of the Sunday
evening services at the lower church
will commence next Sunday evening,
Nov. 4, at 7 o'clock, in the auditorium.
Singing by the people from the Gospel
harmonies, by the choir, and a sermon
by the pastor. All are cordially invited.

Our reporter slipped in his estimate
when he said there was a "noticable"
scarcity of ladies' at the reception ball
given the Pejesoot Encampment. The
fact was there were plenty of ladies
and company are lavish in their praise
of the hospitable manner in which they
were entertained while here.

The officers of Union R. A. C. of F.
& A. M. were installed by ex-High
Priest, A. S. Kimball, esp., at Masonic
Hall on Wednesday evening last. There
was a goodly number of the members
of the Fraternity with their families.
The installation services were very im-
pressive—the installing officer perform-
ing his duties in a most acceptable
manner and to the entire satisfaction
and commendation of all. Music was
furnished by Prof. Burnham, Dr. Pike,
Mr. F. Brooks and others, and after the
installation apples, pears, grapes, etc.,
were served to the company. The in-
stalling officers are: S. R. Knowland,
H. P.; C. M. Smith, R.; J. Frost,
S.; S. L. Crockett, Tr.; H. D. Smith,
Sec.; S. G. Hatch, C. R.; G. H. White-
head, P.; J. B. Bradley, R. A. C.;
G. A. Cole, M. 3d V.; W. H. Hillier,
M. 2d V.; J. Z. Shedd, M. 1st V.;
F. Seavey, S. S.; F. F. Storer, J. S.; R.
Young, G.

Mr. L. F. Tarbett, of Boston, was
last week called to this village to set up
a printing press. This is the third visit
he has made to the place, and each time
he has succeeded in putting
the machine up in good shape.
He is a thorough mechanic and an
adept in printers' and book-binders'
trade, having spent his life, thus far,
in this line of work. Mr. T. learnt his
trade with old Isaac Adams the
original, the first inventor of a
practical power printing press. His
knowledge is not confined to one kind
of a press, but his years of service have
made him familiar with all the differ-
ent presses in general use. He is as-
sisted with Mr. M. K. Kelly, and
runs a printers' machine shop at 172
Oliver Street, Boston, where printers
and book-binders' machinery are over-
hauled and repaired, where any piece
or part of a machine can be furnished
at short notice. Should any of the
readers of the Advertiser be a specialist
in the line of press repairs, we would ad-
vise them to write to Mr. Tarbett, and
he will bet the price of a new hat that
he will do the right thing by them ev-
ery time. Try it and see. This firm
has no machines to do the repair work for
the Goodville-Wyman Co. of Boston,
and who ever got a press overhauled
by that firm but what it came out bet-
ter than new?

THE CENTURY

PROGRAMME for 1883-'84.*
The programme for the fourteenth year of
this magazine, and the third under the new
name, is anything more interesting and
valuable than any other magazine of the
year. The new volume begins with Novem-
ber, and contains a full and complete
history of the year, from the beginning
with that issue. The following are some of
the features of the new volume:
A NEW NOVEL BY GEORGE W. CARLE, author
of "The Cruise of the 'Albatross'," etc., en-
titled "The Cruise of the 'Albatross'." To be pub-
lished in the new volume.
A NEW NOVEL BY HENRY JAMES, of vary-
ing length, to appear through the year.
The NEW ASTORIAN, an interesting and beau-
tifully illustrated magazine, published by
the New York Public Library, and con-
taining a full and complete history of the
year, from the beginning with that issue.
